

NEW SOLUTIONS EMERGE WHEN THINKING ISN'T HARD-WIRED.

SHARE YOUR PASSION IN A TEAM OF FREE THINKERS.

At BMW Car IT, a wholly owned subsidiary of BMW AG, we live and breathe software. We design and implement embedded software for the electronic control units of the BMW cars as well as related tools and frameworks.

Internship: Software Developer in test automation for embedded devices (m/f/x)

Your task is to develop automated test cases as well as enablers for automated testing utilizing Python and/or C++. You will learn about the features of the head unit (the device under test) by executing manual test cases before automating them.

Requirements:

- Experience with Python and JSON
- Passion for testing and test automation
- C++ experience is beneficial

Location: Ulm / Munich
