

IT CAN BE COMPLICATED. TEAMWORK SHOULDN'T BE.

SHARE YOUR PASSION FOR
INNOVATIVE SYSTEM FUNCTIONS.

At BMW Car IT, a wholly owned subsidiary of BMW AG, we live and breathe software. We design and implement embedded software for the electronic control units of the BMW cars as well as related tools and frameworks.

Working Student: Developer for web fronted of a CI System (m/f/x)

At BMW Car IT in Ulm we are working on the development of the latest generation of driver assistance systems. We put a lot of effort into quality assurance in order to maintain and continuously improve the high quality standards of the software components we develop.

You will work on a Continuous Integration (CI) system that integrates software components running in BMW cars. Contribute your ideas to make the web frontend intuitive and user friendly. You'll get the chance to become familiar with features of a modern CI system, develop dashboards and metrics and work within a team of professionals with passion for software quality.

Requirements:

- Hands on experience with web technologies like HTML, CSS, Javaskript
- Overall knowledge in software development aspects
- Experience in Java development is beneficial
- Knowledge of Continuous Integration is beneficial
- Knowledge of DB/SQL technologies is beneficial
