

IF AN IDEA DOESN'T HAVE WINGS, IT WILL NEVER HAVE WHEELS.

SHARE YOUR PASSION FOR
DYNAMIC DEVELOPMENT PROCESSES.

We at BMW Car IT GmbH take the responsibility for software across domains. By delivering software all the way from the idea to the final product we lead BMW into the future of digitalization.

Working Student: Software Development Process Optimisation and Documentation (m/f)

As part of our team responsible for Software Development Processes, you'll be simplifying, optimising and documenting our Agile development process. You will learn and get insights into our processes and working models first hand to be able to contribute to the continuous improvement of our processes and the quality of our software.

We are looking forward receiving your application and are happy to welcome you to work in a team with the mission to make work life simpler and more efficient day by day.

Requirements:

- An understanding of Agile software development processes
- Good English skills
- Experience in maintaining content of a wiki based documentation system is beneficial
- Experience in developing software in an Agile development environment is beneficial.
